Gayle Berthiaume at 00:07 AM, 27 Jun 2012 via web

Welcome!!

Ken at 20:08 PM, 27 Jun 2012 via web

Hello.

Jeremy at 20:09 PM, 27 Jun 2012 via web

Hi

Sheila at 20:10 PM, 27 Jun 2012 via web

Hi!

Jen at 20:12 PM, 27 Jun 2012 via web

Glad to be here

Diana at 20:13 PM, 27 Jun 2012 via web

Hola

Daniel at 20:13 PM, 27 Jun 2012 via web

Good afternoon

Sue at 20:14 PM, 27 Jun 2012 via web

Hello fellow geeks!

@SoCalTeachMB at 20:14 PM, 27 Jun 2012 via web

Hello

Marianne at 20:15 PM, 27 Jun 2012 via web

Hi Ken!

Kathi at 20:15 PM, 27 Jun 2012 via web

Energy!

Jenn at 20:15 PM, 27 Jun 2012 via web

Hello everyone!

Jess at 20:15 PM, 27 Jun 2012 via web

Hello

Jim at 20:15 PM, 27 Jun 2012 via web

Gayle I am from Buffalo MN just down the road from Becker!

Jodi at 20:16 PM, 27 Jun 2012 via web

Hey hey

Jodi at 20:16 PM, 27 Jun 2012 via web

Say "hey"!

Melissa Dyson at 20:17 PM, 27 Jun 2012 via web

Hello, I'm Howard from OKC! Go OKC Thunder!

HW-OKC at 20:17 PM, 27 Jun 2012 via web

Hi Gayle & Ken!!

Stacy at 20:17 PM, 27 Jun 2012 via web

Hi! hAPPy to be here!

Rebecca Penina Simon at 20:17 PM, 27 Jun 2012 via web

12 hours via 2 flights.

Troy at 20:17 PM, 27 Jun 2012 via web

Hey all!

Bernie at 20:18 PM, 27 Jun 2012 via web

Aloha from Hawaii! Excited to be here!

Patti at 20:18 PM, 27 Jun 2012 via web

I am loving the paperport--but how do you delete a page?

Melanie at 20:19 PM, 27 Jun 2012 via web

From Mexico City, hello!

Iona Astorga at 20:19 PM, 27 Jun 2012 via web

Wow...I didn't know that!!

Stacy at 20:29 PM, 27 Jun 2012 via web

Am I the only one who did not know you could zoom with the camera?

Rebecca Penina Simon at 20:29 PM, 27 Jun 2012 via web

thanks for the tips

KB at 20:30 PM, 27 Jun 2012 via web

Favorite app. Action movie . Gives you 2 special effects for free kids love this...

Steve Las Vegas at 20:31 PM, 27 Jun 2012 via web

iBooks is great for opening your files as PDFs

Rebecca Penina Simon at 20:31 PM, 27 Jun 2012 via web

You don't need to "quit" apps. Apps can stay active for no more than 15 minutes (under certain conditions only). Most hibernate immediately.

Troy at 20:32 PM, 27 Jun 2012 via web

Love Zite. You can post to Google+ right from the site.

Troy at 20:35 PM, 27 Jun 2012 via web

Rebecca i did not know either about the zoom...I felt the same way as U...really happy to know something so basic

Camila at 20:35 PM, 27 Jun 2012 via web

You can also add your own "sections".

Troy at 20:37 PM, 27 Jun 2012 via web

Wish they would add Diigo. :-(

Troy at 20:38 PM, 27 Jun 2012 via web

I love flipboard, it is how I get all my work related twitter.

TomG at 20:40 PM, 27 Jun 2012 via web

You can also add audio in FlipBoard.

Troy at 20:40 PM, 27 Jun 2012 via web

It pulls out the articles linked in your twitter feed and offers your previews

TomG at 20:41 PM, 27 Jun 2012 via web

Ken do you have twitter?

JustKrish at 20:42 PM, 27 Jun 2012 via web

You can download backgrounds as stage sites too. So easy

Sue at 20:42 PM, 27 Jun 2012 via web

Love zite & flipboard! Careful zite is addictive! ;)

JustKrish at 20:43 PM, 27 Jun 2012 via web

Please add app images to your list of favorite apps so there will be no doubt which app you are referring to.

HW at 20:48 PM, 27 Jun 2012 via web

Notability is incredible for .99c, use it to edit pdf worksheets with their own handwriting. Great for math worksheets!

TomG at 20:48 PM, 27 Jun 2012 via web

Notability is awesome totally worth .99

JustKrish at 20:50 PM, 27 Jun 2012 via web

Notability Rocks!

Troy at 20:50 PM, 27 Jun 2012 via web

Nevermind...the link will suffice...no images needed.

HW at 20:50 PM, 27 Jun 2012 via web

The audio also syncs with the text.

Troy at 20:51 PM, 27 Jun 2012 via web

No one connects to a computer. iTunes App store remembers anything you have purchased. You can delete and redownload at anytime.

Jeremy at 20:51 PM, 27 Jun 2012 via web

What's the difference between paper port and notability one more time please?

Rebecca Penina Simon at 20:52 PM, 27 Jun 2012 via web

Notability allows you to "sign" PDF's and email out.

Troy at 20:53 PM, 27 Jun 2012 via web

Notability has more features. A key feature is the ability to record.

Troy at 20:53 PM, 27 Jun 2012 via web

Troy - is that the only difference? What about the paper port version that's not free?

Rebecca Penina Simon at 20:53 PM, 27 Jun 2012 via web

Love this class

Rachel Goldman at 20:53 PM, 27 Jun 2012 via web

I love this class too - exactly what a BYOD sessions should be

Rebecca Penina Simon at 20:54 PM, 27 Jun 2012 via web

Rebecca - sorry, I don't know. I switched to Notability a while ago.

Troy at 20:54 PM, 27 Jun 2012 via web

Great class

Rachel Goldman at 20:55 PM, 27 Jun 2012 via web

You can use VoiceRecorder to have student's reflect too. Lower learning curve for the kids. Great idea.

Troy at 20:57 PM, 27 Jun 2012 via web

4 finger swipe up brings up the "Task Bar". 4 finger swipe left or right moves between programs.

Troy at 20:58 PM, 27 Jun 2012 via web

Keynote is great. If you have an iPhone, you can control the presentation with Remote.

Troy at 20:59 PM, 27 Jun 2012 via web

Notability has more things in it. It gives you more access to PDFs etc.

TomG at 20:59 PM, 27 Jun 2012 via web

Yay! An app I don't have FotoPlanet

JustKrish at 21:00 PM, 27 Jun 2012 via web

You can always take screen shots.

Troy at 21:01 PM, 27 Jun 2012 via web

This is a great BYOD!

JustKrish at 21:01 PM, 27 Jun 2012 via web

Screenshots: hold the power key and click the home button.

Troy at 21:02 PM, 27 Jun 2012 via web

The fastest way to get your pics from ipad to computer is to export them without using iTunes.

Rebecca Penina Simon at 21:03 PM, 27 Jun 2012 via web

Kids also love Songify. Turns speech into music

Steve Las Vegas at 21:03 PM, 27 Jun 2012 via web

DisplayRecorder just came out. Allows you to record "screen capture" videos. $1.99

Troy at 21:03 PM, 27 Jun 2012 via web

I love to use Display Recorder

Ken at 21:03 PM, 27 Jun 2012 via web

In General Settings, you can also turn on the ability to Speak any text.

Troy at 21:03 PM, 27 Jun 2012 via web

Just plug your iPad device into your computer, choose the iPad as an external drive, open the folders and copy the pics.

Rebecca Penina Simon at 21:04 PM, 27 Jun 2012 via web

Ken - is Display Recorder like screen casting?

Rebecca Penina Simon at 21:04 PM, 27 Jun 2012 via web

There is also one called freeapps for finding apps! It reports when they are free.

Marianne at 21:06 PM, 27 Jun 2012 via web

You can also use drop box to move images from iPad to computer wirelessly

Patty at 21:06 PM, 27 Jun 2012 via web

DisplayRecorder-I'm not Ken, but yes. It allows you to record your voice while it allows you to record whatever is happening on your screen.

Troy at 21:07 PM, 27 Jun 2012 via web

Yes, Dropbox is great.

Rebecca Penina Simon at 21:07 PM, 27 Jun 2012 via web

If your school does VPP you can get note ability for .49

Patty at 21:07 PM, 27 Jun 2012 via web

I like appbzr. Also let's you get free apps but you can set up a wish list for future price drops

Steve Las Vegas at 21:07 PM, 27 Jun 2012 via web

Sorry Troy, I must have read the wrong name.

Rebecca Penina Simon at 21:08 PM, 27 Jun 2012 via web

You guys are great! Thanks very much. :)

Marianne at 21:08 PM, 27 Jun 2012 via web

Ken's twitter name is k_shelton. The site would be http://twitter.com/k_shelton

Ken at 21:09 PM, 27 Jun 2012 via web

It was just posted that Notability for a school VPP is only $.49

Ken at 21:10 PM, 27 Jun 2012 via web

ShowMe is a great way to create screencasts and you can also get lessons from other teachers

Steve Las Vegas at 21:12 PM, 27 Jun 2012 via web

This is the BEST BYOD session ever!

Rebecca Penina Simon at 21:12 PM, 27 Jun 2012 via web

Thank you this was awesome!

Brenna at 21:14 PM, 27 Jun 2012 via web

Thank you very mucn for the session!

daniel at 21:14 PM, 27 Jun 2012 via web

Brainpop Jr. has just come out as a free app too and it's great for K-3. There is a free movie every day.

Marianne at 21:15 PM, 27 Jun 2012 via web

Loved it, very useful!

Camila at 21:15 PM, 27 Jun 2012 via web

ScreenChomp, EduCreations, Show Me-- students create video tutorials using an interactive whiteboard.

Jenn at 21:18 PM, 27 Jun 2012 via web

Careful. The photo planet that I found in the app store is not the one that Ken talked about.

Lorrie C at 21:18 PM, 27 Jun 2012 via web

Yes the app is actually titled Foto Planet

Ken at 05:30 AM, 28 Jun 2012 via web
